

Seeing is believing. We've combined our proven long-range industrial wireless radios with edge computing capabilities to transform your operation's extreme edge, making it a connected part of your enterprise. And with ten Developer Kit options, depending on the application, you can test-drive our robust solutions.

When ordering DevKit Bundles, Radios should be ordered in quantities of 2 and Accessory Kits in a quantity of 1, with the exception of ZumEdge. Z9-PE, Z9-IO-PE-ZE & IOEX-4422, Radios are ordered in quantity of 1.
